59 07-C-01 Regulation for the number of planted trees by Urban Design Review

The number of planted trees should base on the regulations of Urban Design Review. The statutory space should be reserved in residential buildings, and be coordinated with public open space. A round crown-tree with height over 1.8 meters should be planted as the space area reaches 64 square meters.

Urban Design Review was stipulated in 2014 so that there is increase number in statutory trees totaling 3,856 in 2014. There are 3,425 trees have been planted until June in 2015.
