

41 01-D-01 Promote temples to use energy-saving lamps.

Promote temples within jurisdiction replacing 1000 traditional lamps with energy-saving ones each year from 2016 to 2022.

Make a survey of the electricity consumption, the types and the number of the lamps used in 355 temples. The 24-hour using lamps are priority for being replaced with energy-saving LED lamps.
