

50 05-C-08 Increase and maintain the green area in city park

This project aims to increase the city park green area. The park land that is undeveloped but can be used legally has a priority to be developed. The one we haven't obtained the right to use will be developed in order of priority according to the five indicators that are environment, service levels, budget, development benefit, policy and public opinion. Simultaneously, the authority will set periodic strategy of development, and reach the goals of regional balance.
