

71 10-B-03 Taichung city tourism shuttle bus

1. In response to the trend of low-carbon tourism, tourist can tour Taichung city or participate in activities held by Tourism Bureau with tourism shuttle bus instead of high-carbon private vehicles, or on foot in case of short-term trip.
2. Plan travelling route coordinated with the natural and cultural characteristics of four regions in Taichung city. Popularize the concepts of organic, local, low-carbon, respect, and solicitude to improve the images of tourism and the quality of services.
