

83 18-C-01 The eight year trees planting program

According to the resolution passed in "Taichung city urban land readjustment and public facilities planning implementation by the private sector and management of planting design conference" held in May 19, 2015, we encourage the private sectors to plant trees within adopted parks and green lands and encourage the public sectors to plant trees on park roads and sidewalks in urban readjustment land, to increase the number of trees in expropriation and redevelopment zone.
