Project Title	Solid Wastes Management Project in Musanze District			
Project Summary (In 75 words or less please summarise what your project is about)	Waste management is one of the serious and pressing environmental issues the urban towns in Rwanda are now facing especially in Musanze Town. If left unchecked, this will have adverse impacts on human health, not to mention economic wellbeing. The locally generated domestic wastes and industrial waste continue to be generated. Also, the capacity is still limited. This project consists of sensitization local community on wastes management and collection of wastes and installation of landfill.			
Anticipated Start Date	2013-10-01			
Project Duration (in months)	36			
Name of Lead Organisation	MUSANZE DISTRICT			
Type of Organisation which	Government Institution			
best describes the Lead	Non-Governmental Organisation (NGO)			
Organisation	Private Sector Enterprise			
(please select only one box)	Academic Institution			
	Other (please specify)			
Partner Institutions	FONERWA, RDB, RURA AND REMA			
Full Office Address	MUSANZE District, <u>musanzedistrict@musanze.gov.rw</u> P.O.Box: 03 MUSANZE			
Website Address (if applicable)	www.musanze.gov.rw

Sustainable Land Management	
Integrated Water Resources Management	
Sustainable Mining and Quarrying	
Sustainable Forest Management	
Promotion and Protection of Biodiversity	
Renewable Energy and Energy Efficiency	
Pollution Management	
Water Storage, Conservation and Irrigation Technologies	
Applied and Adaptive Research (Agro-Forestry, Waste, Urban Planning)	
Solution	
Data Collection, Monitoring and Management Information Systems (MIS)	
Strategic Environment and Climate Assessments (SECAs)	
Sector specific (or national) adaptation and/or mitigation	
Support to implementation of cross-sectoral integrated planning (e.g. IDP, VUP)	
What is the methodology and approach to be used by the project to achieve the	
specific objectives described (<i>describe briefly the main activities</i>)?	
ocal communities in the problems and solutions, and mobilise them in intation ing private to invest in wastes management ing a chain of wastes management from household to landfill dust bins and puts in place the vehicles for wastes transport ion and operation of the landfill cion of the project (District) in collaboration with all stakeholders will set measures of anagement d implementation monitoring and evaluation coordination staff of the project building of staff /institutions Who will be carrying out the project activities (<i>if submitting in partnership with</i> <i>others, describe which member will undertake which work</i>)?	
E District is implementer of this project. Through tender process different ves and investors will participate in wastes collection, transport/evacuation, and disposal. In 36 months Musanze District will head the project and after 36 he project will be financially autonomous thanks to funds generated. Il provide guidelines and standards on wastes management in term of n s conducted study on Hygiene and Sanitation mast plan in Musanze District Il participate in advising provide the terms of reference and certificate of Environment Impact ent /A the project fund is required.	

Project ProfileDocument

Q 1.7	<u>What</u> is the experience of the team that will be carrying out the project activities (<i>briefly explain project management experience and technical expertise</i>)?
	(briefly explain project management experience and technical expertise):
Th	et eteff will be bined an alville besig. Comencicien will be associated as the District tesore
-	nt staff will be hired on skills basis. Supervision will be carried out by District team.
	as competence for project administration, coordination and technical capability to
undertake this p	•
	ct will comprise of the following Technicians: District Environment Officer, District
Health Officer ,	District Urban Officer and District Environment Facilitator/REMA
Q 1.8	How will monitoring and evaluation of the project be undertaken?
During the proj	ject implementation, there will be quarterly monitoring and evaluation to assess the
performance an	d the stage of achieving the objectives. And District team will intervene by Monitoring
and Evaluation t	cools used on District projects.
SECTION 2: SAT	ISFACTION OF ELIGIBILITY CRITERIA
Q 2.1	Eligibility Criteria 2: How will the benefits of the project be sustained after
	FONERWA funding comes to an end?
The financial be	enefits will allow sustainability of the project
 Musanz 	e District will get taxes paid by cooperatives collecting wastes and from other by
product	s coming wastes treatment. This income (taxes) will constitute a fund for further

Project ProfileDocument

Q 2.4	Eligibility Criteria 5 & 6: How have you ensured that proposed activities are in line with national, and/or local strategies and that your project conforms with Government legislation? Does the project build on existing activities?			
This project supp	ports the government objectives of environment protection and well being of all			
	Rwandans by reducing all types of pollution (air pollution, soil pollution, water pollution) and			
protection of biodiversity.				
•	Proposed interventions are and aligned with EDPRS II, VISION 2020, Sub Sector Strategic Plan linked to			
Musanze DDP:				
	SECTION 3: YOUR SUPPORT NEEDS			
Q 3.1	<u>What</u> is the likely cost of the project (<i>RWF or USD; disaggregate by capital and recurrent expenditure</i>)?			
25% as recurrent expenditure				
Q 3.2	How much of the expected cost of the project are you seeking from FONERWA?(%) ?What are the other expected sources of financing?			
95% of the budget is being requested from FONERWA. Remaining part is from District ordinary budget				
Q 3.3	<u>What</u> information, training and support would your organisation need to develop a high quality full Project Document (PD) and/or to implement the project?			
We need a consultation meeting with FONERWA team before starting this project. Musanze District				
will discuss the content and structure of the full PD before its developed and will also need a technical				
support to review the draft of PD before its submission.
