Phase II of the Cannon Creek Greenway begins

This weekend the National Guard will begin clearing land for the phase two of the **Cannon Creek Greenway**. Currently the Greenway, which is a bike and pedestrian trail, parallels the Richmond Henrico Turnpike between Dove Street and Valley Road. Phase two will connect the Greenway to Brookland Park Boulevard.

If you haven't been over to see the trail, its worth a trip; it's very nice. Although I do wish they'd connect the trail to downtown-making your way from Valley into the City is complicated and dangerous.

I'm using it regularly now- both riding to work (Northside to Tobacco Row), and on other rides towards Varina. It would be nice if it went a little further in both directions, but at least it keeps me off of Brook for some of my commute, and out of downtown during rush hours.

Is there a map of this anywhere online?

@Jon Google Maps actually has it included in their map:
<https://maps.google.com/?ll=37.564336,-77.429699&spn=0.006872,0.00765&t=h&z=17>
