

City of Lund

We aim...

- ... to share experiences
- ... to influence national policies and plans on i.e. building, transport and energy issues.
- ... to show the great strength in local action taken by the cities and regions of Sweden, Europe and the world.

Website: www.klimatkommunerna.se
Email: kansliet@klimatkommunerna.se

We are...

...an association of 34 Swedish cities, towns and regions working to reduce our climate impact, and drive the shift toward a more sustainable community. Klimatkommunerna started as a network in 2003, and became an association in 2008.

To achieve this, we...

- ... arrange networking meetings for members
- ... comment on official reports about national policy
- ... write opinion papers and debate articles
- ... are a Covenant of Mayors Supporter
- ... coordinate the Covenant of Mayors Club Sweden
- ... Invite non-members to thematic seminars
- ... participate in international projects
- ... communicate via website, newsletter and social media.
