

Etelä-Karjalan jätehuolto Oy takes care of all waste management in South Karelia territory. This territory consists of nine municipalities including Lappeenranta.

Lappeenranta municipality share of all waste in 2014 was:

- 9843 t dry waste of which 9252 t was used on energy utilization (without industry)
- 559 t landfill (without industry)
- 176 t industrial waste (only industry)
- 998 t hazardous waste (municipality and industry)
- 813 t construction waste (municipality and industry)

Only 6 % of the dry waste was disposed to the landfills in 2014.

Waste disposal expenses in the City of Lappeenranta were 5 232 800 € in 2014. That was 1% of the total city budget of 454 million €.
